**Chapter 21**                      2nd moon rising  
   3rd moon phase

Vircingetor is (AKA) leaves.

Back at his hame he suddenly realizes that he has  
been playing out a selfmetaphor with the time-  
quadrant been op polyhc|rant.

He pulls a fit.

Energy pours out afhim in  
wavesofpowerfulelectromagneticwaves.

This causes an electricdisturbance which sets-  
off-the-fire. Vircingetoris cantains it with  
ufireextinguishers "

A couplechairs a e broken in the aftereffects of  
the wavedisturbance.

Theseguy in bluecoats come later That alay and  
drag-him-away.

Vircingetoris could easilyfightback except They  
are government of Licers. 3 policeaaron, 1  
Psychologoe), They drag him away.

Because of his money they can't hold him.

He was taking up for unlawful action.

He was already lathed in  
unlawfulcarnalknowledgoc.

Thanks to his money he goes back, shaken "

Apparently that can suddenly happen to a person in his position so

Strange, Life, that is  $\subseteq$

You think you got the variables controlled, then suddenly you get this temporary shock.

First a deregated female, a lying bitch, Then, now, This intrusion upon his person.

Maybe he'll retire off into cyberspace , you know, like perpetual astral plane.

He could arrange that in a couple months .

To rely on spoken word is to trust .

To Trust is to Love .

For when you must have private development of materials and works it is risky to take on unwanted friends.

With a system-wide Internet voting system system could be vastly improved.

The natural tendency of The AC'er is to want to improve the surroundings with voting circles This is decided down to the large majority.

Quite simple actually.

Then again the voting-chains, circles, vortexes will release the desire of the unrelenting beasts.

VO $\pi$ 

So, that's his plan -11.,> $\forall\{\#&\exists\%&$

Vircingetoris looks up at his panelafscreens ,  
 He has the choice of structural or virtual.  
 Thanks to the nice protectionofplastic.  
 It being waterproof, fireproof,  
 magneticfieldproof, it tends to be a fineinstrument  
 to Love.

Can he rely on his tactics?

He has to wait .

He hates waiting .

He'll just love to wait it out .

That is what is hateful about waiting .

There is nothing he can do about it .

That is waiting .

When your CD's are made, is **3** months .

When you release something is another time .

It is later .

The problem is temporary .

In these cases is a pile of do .

Vircingetoris just gotta wait .

Waiting is a form of Death .

Time goes by and what do you produce?

When you release something you Love to wait **for**  
 the results, and That is the difficult part .

Time keeps on going by .

Thankfully waiting-time is temporary or too late?

Vircingetoris strugg les with bored**om**,  
nothingness .

When you are waitingforresults the Internet is  
faster.

Tomorrow le will love the first sign  $\Psi$  His email  
should grow to staggeringquantities . A team  
afreaders will deal with it .

That is of course iF that streamofbusiness comes  
.

He has 24hrs to waut again .

24hours sonehow goes by and hegets oneresponse  
encoded&formed at newsbroadcast .

The time is set .

You get to compete, pegform, for the headmasters  
with Their changingfaces.

Do you get judged truthfully?

With absolute demociacy the truth is the choice  
of TheInternetvoters .

Tlc plan is a suve one with muchconfidence in its  
success.

It succ**eeded**!
